Notes

- I. All films are scanned full frame, including a small amount of border.
- II. For negative film, we advise to include a contactsheet. If not included, the full color spectrum available will be scanned.
- III. File sizes in the prize chart are estimated sizes and can vary from the actual sizes.
- IV. Scans are completed as soon as possible depending on large volumes and schedule.
- V. Files are not upsampled to increase the file size.
- VI. Originals must be flexible enough to mount onto the drum.
- VII. All films are handled with care and attention. Submitting any film for scanning or other purposes constitutes an agreement that any damages, loss or delay is without warrant or liability. Any recovery for any incidental or consequential damages is expressly excluded.
